Please respond to EPAKathrynHernandez

We have an extensive approved QAPP that was followed and all the data has been QAd and can be used.

Kathy

Subject: Quality Assurance

To incorporate a change in paragraph 46 (which allows UPCM's use of previously EPA collected data), would you please let Kerry know that existing data passes QA (or, if there are any problems, please let them know that- so that they have advance notice and know what they can use)?

Thanks!
